

FACTORY

«modern times»

Created from a vision of practical and functional amenities, the Factory collection is inspired by the industrial era of the XIXth century.

These rooms of an atypical industrial style will reinvent your home, and become the key to a unique interior, of your imagining.

FACTORY

Patina

Obtained by several successive coats of paint, the Factory patina is the fruit of a long and painstaking procedure entirely done by hand.

Composition

The water tinted pine surfaces have a layer of cellulose to preserve the patina. The fixtures are made of wrought iron and the sculptured features in cast iron.

Style

Stately materials, a unique touch and a robust structure.. This furniture will lend your interior an industrial hallmark and a touch of originality...

Furniture laden with history

Inspired by furniture found in former mills and factories of the XIXth century, we offer a design that is both modern, authentic and much sought out today.
