

Gustavien

GUSTAVIAN, or the luxurious splendour of Versailles furniture reinterpreted by labouring artists at the request of Gustave 111. Refined and elegant, a subtle blend of muted colours and ornaments, a twist of genius in guise of sobriety ..

Gustavien

Gustavien

Patina

The furniture has several successive layers of acrylic paint, sanded and aged by hand. For better protection, a veil of cellulose varnish is also added.

Structure

The structure of all our painted furniture is made entirely in wooden fibreboard of medium density (MDF) E1 quality

* The legs are made of spruce.

Sculptures et ornaments

Entirely hand-made, these sculptures and ornaments are the work of true craftsmanship. They give the Gustavian collection their unique character.

Wrought-iron

Handles, locks and keys in patinated metal are developed with great care to keep the hallmark of this XVIIIth century collection.
