

Romance

Voyage en Provence

Fragrance of Provence, where effusions of lavender, orange blossom and olive trees mingle to inebriate you in a joyful summer dance. Let your senses awake to the singing of cicadas, let yourself be carried away by the romance of this collection.

All you need to know about the Romance collection.

Structure

The structure of all our painted furniture is made entirely in wooden fibreboard of medium density (MDF) E1 quality
* The legs are made of spruce.

Patina

The furniture has several successive layers of acrylic paint, sanded and aged by hand. For better protection, a veil of cellulose varnish is also added.

Low-maintenance

Protected by a veil of varnish, the surfaces are easily cleaned with soapy water. They are waterproof.

Robustness

MDF is a stable and solid material that is worked in the same fashion as solid wood. This material, much more dense than some species of wood, gives our furniture a very high resistance to scratches and shocks.

A single block

Only a piece of furniture assembled in one piece (i.e. without the assemblage of drawers or other parts and without screws) guarantees robustness and a sound investment. Furniture kits cannot meet these requirements
